

Mini Trencher

The Digga Mini Trencher designed specifically for mini loaders is the lightest, most compact, power packed mini trencher on the market today. Unique design gives the operator consistent digging depth, efficient spoil to one side of the trench and finely crumbed spoil for effecting compaction back into the trench. Provides minimal ground disturbance to surrounding conditions and a cleaner job finish.

Features:

- Quality Digga New Generation gearbox and motor
- Adjustable Skid Foot to maintain constant digging depth
- High quality bearings and components
- 4 Different chain options available; Earth, Frost, Combo and Diggatec
- Up to 900mm Digging Depth and 200mm Digging Width
- Frame can be side shifted for digging close to permanent structures

Ideal Use:

Pipe laying for irrigation, underground power and communications, road repairs and general construction

Machine Suitability:

Mini Machines, Excavators and Small Skid Steer Loaders
